

HOBIE HI-BACK MESH by Stohlquist

This front entry vest was designed just for Hobie Kayaks! The flotation in the back is up high and away from the seatback (less bulk down low). Short length does not “ride up” around your neck when you are sitting. There is a mesh panel across the back. Front zip entry for easy on and off. A zipper keeper to prevent the zipper from slipping down when in use. Large mesh pockets on the front for easy storage and access of small items. Stretchy neoprene adjustable padded shoulders. Ventilated mesh side panels. High waistline cut. Huge arm cutouts and a short waist allow excellent freedom of movement. Adjustable side straps offer enough size variation for many layers underneath or none!

SAFETY TIP!

LIFE VESTS Get a good, comfortable life vest and WEAR IT! A life vest does you little good stored on your boat, especially if you get tossed into the water and away from your boat. Accidents happen and by their nature, they happen when you are not prepared. A life vest can keep you afloat until you can rescue yourself or you can be rescued by others. In the worst cases when injuries or cold water are involved, your life vest can make all the difference! Be sure everyone onboard your boat wears a life vest too! Pass the word! Federal law now requires that all persons below the age of 13 must wear a life jacket while aboard a boat.

The 4' tall safety flag will help other boaters see you. Very important in areas with mixed boating traffic! For mounting in areas with internal access, you can use large washers and the provided nuts for mounting. Otherwise, in areas with no internal access, use the mount which includes bolts and well nuts.
