# HOBIE PRO ANGLER H-BAR

**HOBIE H-BAR** The H-Bar from Hobie adds utility and options to your Hobie Mirage Pro Angler. Designed with the stand-up angler in mind, the H-Bar not only provides standing stability, but a great support platform for entering and exiting your kayak. Use the H-Bar to pull yourself up and make a cast to feeding fish. Made from clear-coated anodized aluminum, the H-Bar is light, strong, and quiet so fish don't spook. Mount accessories on the H-Bar like fishfinders or rod holders or leave it clear for stand-up paddling. Add a stripping basket to the front for snag-free fly fishing. Cast further while you lean against the foam pad in comfort. With the removal of two pins the H-bar folds away in seconds, leaving your front hatch and cockpit area fully accessible.

# RAM ROD HOLDERS / MOUNTS

RAM is the revolutionary universal ball and socket mounting system that allows you to mount practically anything anywhere. Unlike other mounts on the market, RAM allows you to mount items where you need them most. If you need to mount a Rod Holder, GPS or FishFinder look no further. RAM mounts will help you make a professional job easy. Its unique design provides easy installation, mobility, strength, versatility, vibration protection and durability, all at a low cost. RAM is backed by a Lifetime Warranty which makes it the mounting system of choice. To provide light weight strength and corrosion resistance, RAM uses marine grade aluminum with a powder coated finish, light weight nylon injected molded plastic, stainless steel hardware and rubber balls.

# SCOTTY ROD HOLDERS / MOUNTS

## SCOTTY ROD HOLDERS

Bait Caster/Spinning Rod Holder. Holds a baitcaster reel in a cushioned cradle. A slot in the front of the holder allows for a spinning reel to be securely held in position. The rod holder design has a side mounted flange, which leaves the bottom open. This allows for the rod holder to accommodate trigger sticks. Pistol grip rod butts easily clear the sides of the rod holder for quick rod retrieval. Rods can be secured in holder with a soft latching strap which snaps over the top. Fully adjustable up and down and rotates 360 degrees. Requires either the combination deck or side mounting bracket or flush deck mount (bolting dimensions - 1 5/16" x 3 3/16").

# YAKATTACK MOUNTS

YakAttack builds accessories for kayak safety and kayak fishing. They strive to develop and manufacture only the highest quality products. Most of the products are born of necessity, while they're out on the water. From the paper napkin to the drawing board to manufacturing, YakAttack works hard to ensure nothing is left on the table, that every aspect of every design is carefully considered, and that they design and produce the highest quality, most useful kayak fishing accessories possible. Hobie Cat is proud to include these products in our catalog!

**GEARTRAC** Add a whole new level of versatility to your kayak with GearTrac from YakAttack! GearTrac makes your kayak not only adjustable, but fully configurable, enabling you to change your setup from one outing to the next. Trolling for kings today? Fly fishing tomorrow? Duck hunting next weekend? GearTrac gives you the ability to go from a fully rigged kayak fishing machine to a flat deck in minutes.

You'll never look at tracks the same way again. Of course you can attach to your kayak, but how about your milk crate? What about organizing your accessories in your truck or garage?

Take it to another level by attaching a YakAttack MightyMount to the back of the track (yes - we matched up the hole patterns). Attach a Screwball to the MightyMount and your GearTrac becomes a fully articulating, remote platform.

**PANFISH CAMERA MOUNT** Getting your camera pointed in the right direction just got a little easier. The PanFish™ by YakAttack™ features a split mast design with adjustable friction disks that allow quick and easy horizontal panning. Just grab the foam grip above center mast and rotate. Nothing to loosen, nothing to get loose. Just point and let go.

The PanFish™ was designed for over-the-shoulder video with lightweight cameras. We recommend a maximum payload of 1 lb, including camera and housing (if applicable). This covers most lightweight and point-and-click style cameras.

**72020055** PANFISH POLE (W/O MIGHTYMOUNT)  
\$60.00

**PANFISH PORTRAIT** A picture says a thousand words, so keep it short and sweet with the PanFish Portrait™!

Designed for mounting in front of the paddler, the low profile of this full featured camera mount keeps it out of your way but readily available for trophy pictures or reverse angle video of the big fight.

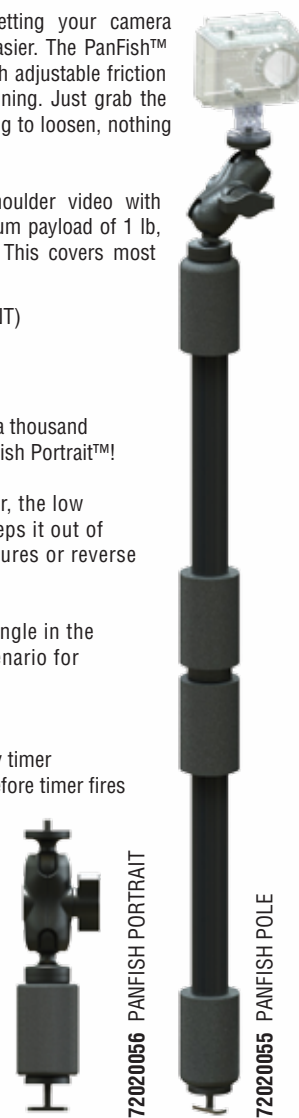

The pivoting head can be positioned at any angle in the horizontal plane. This creates the perfect scenario for "hero" shots.

- 1) Rotate LCD towards you
- 2) Navigate your camera's menu to set the delay timer
- 3) Rotate lens towards you, pick up your fish before timer fires
- 4) Perfect hero shot!

This same process can be used for taking Catch-Photo-Release photos while holding the fish securely to the measuring board and getting your mug in the shot to boot!

The PanFish Portrait™ was designed for a maximum payload of 2 lbs, making it ideal for reverse angle video with "heavier" cameras.
